

專題演講

Head of department Processing and Head of Research Group
Shaping Processes and Simulation/Compounding and Mixing Simulation
Leibniz-Institut fuer Polymerforschung Dresden e.V.
Germany

Dr.-Ing. Ines Kuehnert

Title: "The role of Process Simulation during Polymer Materials Development"

Time

2019. 06. 28 (Fri.) 10:30-12:00

Location

E1-470

Research Field

- Multi-material and assembly injection molding
- Micro injection molding
- Process induced morphology in polymer-polymer or polymer-metal-interfaces
- Development of testing methods to measure bonding strength
- Process simulation – influence of material data
